

2017 T.J. Arcati Outing

Golf, Tennis, Bridge & Reception

Please join us in remembering T.J. while raising funds for sarcoma research. T.J. lost his life at the age of 34 from a sarcoma, which is an under-researched cancer. This research project was started in 2013 because family and friends wanted to make a difference in T.J.'s name. The Foundation distributes your donations to the Cold Spring Harbor Laboratory where the research program has expanded in depth and scope each year.

Monday June 19, 2017
